Re: letter of support for Violetta Liszka's Project Grant Application

I am very pleased to be writing in support of Violetta Liszka's Project Grant Application.

'a space' arts have supported Violetta through our Artist Resources programme and the Lucky Dip bursary scheme 2023. She exhibited her work as part of a group exhibition in August 2023 at God's House Tower, having spent the summer developing her ideas for the Against Refrigerator Mothers project. The workshops she arranged were well attended and all of the participants benefited a huge amount, both by getting creative, but also making connections with other autistic children and other mothers.

Violetta is an active and engaged member of the artist community in Southampton. I believe that she has the skills, vision and ambition to deliver an excellent project and develop her practice, particularly the socially-engaged elements.

To support Violetta working towards submitting this application, 'a space' arts has been working with her through ongoing professional development sessions. We are committed to providing ongoing support to Violetta at this important time through our artist resources programme.

I hope you can support this application and assist Violetta to take this important step.

Kind Regards

Mia Delve
Curator & Programme Manager - 'a space' arts
